

A GREAT BIG GOD!

We serve a GREAT BIG GOD! How big is He? It may be hard for us to grasp just how big God is, but **Psalms 19:1 says "The heavens declare the glory of God. The expanse shows his handiwork."** **WEB** That means that the sky, outer space and everything in it declare His majesty. The universe is big, but God is BIGGER!

Isaiah 40:12 says "Who has measured the waters in the hollow of his hand, and marked off the sky with his span, and calculated the dust of the earth in a measuring basket, and weighed the mountains in scales, and the hills in a balance?" **WEB** That's a Great Big God! If He holds the universe, the earth and everything else in His hand than that means He holds you too. He is bigger than any problem we have and bigger than any fear. He made all these big things, but He cares about us and loves us unconditionally. His love is BIG and the bible says that perfect love can cast out all fear. There is no problem in our universe that is too big for God. As big as our problems seem sometimes, God knows just how big your problem really is. When I'm faced with fear, I just tell that fear that I serve a GREAT BIG GOD! Let Him be magnified over your problems and over your fears. His love never fails.
